

PROPOSAL FOR COLLABORATION

HACKOFF

Hack Off, organised by IET-VIT is an event where all the techies will be gathered to innovate together and make the worked a better place. Hence it's sure that all of them are project freaks, eager to work on real world problems and cooperate with the industry. Hence this also gives the industries to grow and utilize the best opportunity to share their work with the best of young minds.

BASICS OF AFFILIATION

whatever information is there
